

INTERNATIONAL SYMPOSIUM ON
INFORMATION AND COMMUNICATION TECHNOLOGY

ISICT 2022

**10-11
March
2022**

Organizer

Institute of Information and Communication Technology
Rajshahi University of Engineering & Technology
Rajshahi - 6204, Bangladesh

Chairman
University Grants Commission,
Bangladesh

Message

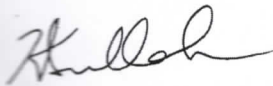

I am delighted to learn that Institute of Information and Communication Technology (IICT) of Rajshahi University of Engineering & Technology (RUET) is going to organize an “International Symposium on Information & Communication Technology (ISICT)” 10-11 March, 2022 at RUET, Rajshahi.

An international symposium of this kind will give academic and industry experts with an opportunity to address the most recent concerns and advances in the area of advanced and sophisticated applications based on ICT. This would help to create innovative ideas in the field of Information and Communication Technology. It will also broaden our perspective and comprehension of these new advancements and innovations.

Every aspect of our lives is being impacted by new inventions in modern science and technology. The remarkable progress of engineering has simplified our lives and reduced the cost of living. ICTs are altering the workplace, offering new job opportunities and making labor markets more inventive, inclusive, and global.

On behalf of the University Grants Commission of Bangladesh, I want to express my gratitude to the organizing committee for working tirelessly for months to put on such an important symposium. I am hoping that the symposium will live up to the expectations of engineers, researchers, educators, policymakers, and most importantly, students. I hope that the ISICT 2022 will be a memorable and beneficial event for the delegates who have come from far and near to exchange their thoughts and share the newest breakthroughs in the field of Information and Communication Technology.

I wish ISICT 2022 a great success.

Professor Kazi Shahidullah
Chairman
University Grants Commission of Bangladesh

Director General
NMST, Bangladesh

Message

I am delighted to acknowledge that Institute of Information and Communication Technology (IICT) of Rajshahi University of Engineering & Technology (RUET) is going to organize an “International Symposium on Information and Communication Technology (ISICT)” on March 10-11, 2022 in RUET, Rajshahi.

This type of international symposium will allow academic and professional specialists to discuss the most recent challenges and advances in the field of advanced and sophisticated ICT applications. It would aid in the development of novel ideas in the realm of information and communication technology, as well as broadening our understanding of these new developments and advances.

In this age of modern science and technology, new inventions have an impact on every aspect of our lives. Engineering's remarkable progress has greatly simplified our lives and reduced the cost of living. ICT has transformed the workplace, creating new job opportunities and making labor markets more inventive, inclusive, and global.

As Director general of NMST, I'd want to offer my gratitude to the organizing team for their months of hard work in putting together such a remarkable conference. I am optimistic that the symposium will meet the expectations of engineers, researchers, educators, policymakers, and, most importantly, students. I also hope that the ISICT 2022 will be a memorable and landmark event for the delegates who have traveled from far and wide to share their ideas and learn about the most recent advances in the field of information and communication technology.

I wish ISICT 2022 great success.
